1. Questions regarding Technical Specifications

1	Lot 1 Item 11	Measurements for office visitor chair are fully out of any standard recognized for office furniture. Besides, it is not possible to sit on a chair where the width of a seat is only 406 mm?! Also, there is a problem with back: an adult can't place his back on a chair with 356 mm width?! Therefore we believe it's a mistake. Otherwise, you will get a chair <u>without any useful value</u> .	Please refer to Corrigendum number 2.
